KEYPLAYER Interim Management · Friedrichstr. 1a · 80801 München

We are recruiting for a permanent position with an internationally active, private equity-backed industrial manufacturing company:

Chief Financial Officer (CFO) (m/f/d)

Location:
Northwestern Hungary

The Company:
Our client is an internationally active, private equity-backed industrial manufacturer with approximately 225 employees and annual revenue of around EUR 40 million. The business operates in mechanical engineering, agricultural machinery and turf maintenance equipment. Its Hungarian production site specializes in steel structures, metalworking and complex welded assemblies.

Key Responsibilities:

- Overall responsibility for Finance, Controlling, Accounting and Cash Management
- Lead, stabilize and further develop the finance organization
- Optimize reporting and controlling processes to ensure transparency and reliable financial information
- Improve financial and operational performance through cost optimization, efficiency initiatives and working capital management
- Oversee financial statements and reporting under Hungarian GAAP and group requirements
- Serve as the main financial contact for private equity investors and other stakeholders
- Partner closely with the CEO on strategic and operational decisions
- Manage audits, regulatory compliance and financial governance

Candidate Profile:

- Several years of experience as CFO, Finance Director or in a comparable senior finance leadership role
- Strong industrial manufacturing background, ideally in mechanical engineering, metalworking or related production environments
- Proven experience in private equity-backed businesses, transformation and performance improvement
- Strong knowledge of Hungarian GAAP, financial accounting, controlling and liquidity management
- Hands-on, entrepreneurial and solution-oriented leadership style
- Track record of leading finance teams, stabilizing operations and improving processes
- Fluent Hungarian and English required; German is an advantage

Your Opportunity:

- Take ownership of the finance function in an international, private equity-backed industrial company with direct access to executive management
- Play a key role in strengthening financial transparency, operational performance and the company's further development
